NEVER DESPAIR OF LIFE!
KELLEY & CO'S
HIGHLY CONCENTRATED
SARSAPARILLA
Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives
Annually!!
10,000 CASES
Of SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and HUMORS of which *proof* can be furnished. This is the only medicine known to cure these diseases.
THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottle its FULL STRENGTH and power, without reducing it and this is done for the special benefit of those who use it as it is objected to all other Sarsaparillas that they are Weak, Clumsy, Adulterated Sickish and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be
Six Times Stronger
than any other and Six Times Better, Safer, Surer, and Cheaper than all others. *THIS* Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world, and CURES all the Sickness KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures—
Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!
CONSUMPTION CURED WITH
KELLEY & CO'S SARSAPARILLA!
A PHYSICIAN who is truly the most distinguished of any in a large City for professional skill CERTIFIES it nothing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says that there is no medicine in which he has so much confidence for **Diseases of the Lungs.**" Some will marvel at this REMARKABLE Cure but hundreds are knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities. And says
SIR BENJAMIN BRODIE,
Surgeon to the Royal Family of England that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing injury. What distinguished compliments are these? Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails the
Severest Scrofula and Humors,
where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason of this is, that it makes the **BLOOD** perfectly Pure Rich, Healthy Quick Free Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful Strength wasting Appetite gone, Pulse weak, or feverish Skin yellow Nerves deranged. It restores Health, Strength and Vigor to every disordered function of the System—causing them to move in just as Nature requires. And for its WONDERFUL Power over Disease in every form and for which no other Medicine possesses, the public justly style it the
Master Remedy of the Age!
The great secret of all its triumphant success over all other Sarsaparillas is that it does not tamper with the patient, or prolong his sufferings. But it first attacks the disease and stops it then removes it, then brings up the flesh and strength on a perfectly pure blood, so that the cure is always thorough and permanent. Others only, scatter for both, that disease but this EXTIRPATES it wholly from the system—this saves the patient while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that **Medical Colleges, Professors,** and Physicians always prefer it for the sake of its Superiority. Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH!
Ladies, Married and Unmarried!
It is for you especially that this Sarsaparilla is made, as the "HEALING ART" has been tasked to the utmost to have it exactly suited to **FEMALE COMPLAINTS.** These Complaints have never been cared for as they ought, hence it is that all the medicines which are used with the hope of Cure so invariably and entirely fail. But this Sarsaparilla has the **SPECIAL** ability, to cure every Disease Affection, or Pain, which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

TO THE AFFLICTED.
DR. DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame, at his office,
No. 55 Union Street.
Dr D has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M D. He has been upwards of 40 years in practice. The diseases of females will receive the Dr's particular attention. He will tell all the diseases from an examination of the eye—this is an advantage that Dr D has above all other practitioners, and which will necessarily do away the necessity of a long and explanatory explanation on the part of the patient, of the disease with which they are afflicted. The age and length of time the patient has been suffering is all the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.
Dr D has been very successful in the treatment of Colds, Coughs, Consumptions and Liver Complaints, all Pulmonary diseases, Scrofula, Rheumatism Fits, Dyspepsia, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder, The dolor eau, Hernia, Abdominal Weakness, Tooth-ache, Intemperance, Stammering. Dr. D warrants a cure of any of the above diseases, if applied to in season.
He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8 to 12 AM and from 2 to 9 P.M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package.
All communications (post paid, with a fee enclosed, will be strictly attended to.

FITS! FITS!!
HART'S VEGETABLE EXTRACT
is the only remedy that can be relied on for the permanent cure of Spinal Complaints, Spasmodic Contractions, Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors, Neuralgic Affections, Apoplexy, Paralysis, General debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders, including the most dreadful of all diseases that ever afflict the human race.
EPILEPTIC FITS,
or Falling Sickness, Hysterical Fits, Convulsions, Spasms, &c. Dr Hart would impress it upon the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases. Its tendency is to insanity, madness and death, the most.
SKILLFUL PHYSICIANS
of Europe, as well as those of our own country have pronounced Epilepsy incurable. And it has been so considered by many until this most important of all discoveries was made by Doctor Hart, nearly six teen years since, during which time it has been performing some of the most
REMARKABLE CURES
upon record, and has acquired a reputation which time alone can efface. Physicians of undoubted skill and experience, ministers of various denominations as well as hundreds of our eminent citizens all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends, who are thus afflicted as the only remedy.
WE QUOTE THE LANGUAGE
used by those who have been cured by this valuable medicine. One says, "I have suffered beyond my power of description, but now I rejoice in being fully restored to health and happiness." Another says, "I thank God I feel that I am a well man. I also feel it my duty to proclaim it to the ends of the earth, that those similarly afflicted may find relief." Another (who was
EMINENT LAWYER,
and well known in this city,) says "my son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract." Another says he, "should and ought to be sounded to the ends of the earth." An other says, "Language is entirely inadequate to express my gratitude to Dr. Hart, for having been the means, under the blessing of God of restoring me to good health after having been afflicted with Epilepsy in its worst forms for more than twenty three years, and my morning and evening song is one of praise and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole."
Mrs J. Bradley, 115 Orchard street, New York states that she has been subject to Fits for many years, and has been restored to perfect health after every other means had failed by the use of the Vegetable Extract.
Dr Charles A. Brown of Dowdeville, Alabama, who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract, and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge.
Curtis G. Masberry, Esq, formerly Postmaster at Lime Mills, Crawford Co, Pa, now living in Erie Co Pa states that for many years past he has been sorely afflicted with Fits, and he is now happy to state that a perseverance in the use of Dr Hart's Vegetable Extract has restored him to sound health, being entirely freed from that worst of all diseases.
Mr Stephen E. Pratt, corner of Sixth Avenue and Twenty sixth Street, New York states that Mr Charles E. Beighton, a member of his family has been so severely afflicted with Epileptic Fits for many years that he was obliged to relinquish his business. Having used Dr Hart's Vegetable Extract [says Mr P] he was soon restored to perfect health, and left this city for the State of Ohio to resume his business.
Rev Mr Smith, Rector of St Peter's Church, Spotswood, New Jersey, who has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr Hart's Vegetable Extract, and his health has been so much improved that he hopes by Divine blessing to have no more Fits.
EPILEPTIC FITS,
For twenty seven years and six months, cured by the use of this truly wonderful medicine.
Read the following remarkable case of the son of Wm Lecoe, Esq of Philadelphia, afflicted with Epileptic Fits for twenty seven years and six months.—After travelling through England, Scotland Germany and France, consulting the most eminent physicians and expending for medicine, medical treatment and advice three thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever and was cured by using
HART'S VEGETABLE EXTRACT
I have spent over three thousand dollars for medicine and medical attendance. I was advised to take a tour to Europe with him, which I did. I first visited England. I consulted the most eminent physicians there in respect to his case. They examined him and prescribed accordingly. I remained here three months without perceiving any change for the better, which cost me almost two hundred and fifty dollars, pocketed by the physicians, and the most that I received was their opinion that my son's case was hopeless, and
POSITIVELY INCURABLE
I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November, with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone he was restored to
PERFECT HEALTH
His reason, which was so far gone as to unfit him for business is entirely restored, with the prospect now before me of life, health and usefulness. He is now 28 years of age, and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases, but thank God is now enjoying good health.
Now, sir, forth without works I don't believe in.—To say I shall be ever grateful to you is one thing, and as I have enclosed you one hundred dollars I have no doubt you will think this another and quite a different thing. The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance. Yours, very respectfully,
(Signed) WILLIAM SEGORE.
THE TIME IS NOT FAR DISTANT
When thousands who are now trembling under the hand of this dreadful disease, and fearing that every attack may prove fatal, will find permanent relief and be restored to new life, by using this celebrated medicine.

Whig and Courier.

John S. Sayward ... Editor

MONDAY, DECEMBER 18, 1848.

Rev C Crooks, of Boston, has communicated to the American Academy of Art and Science, three plans—one by which the hours of time may be struck, at the same instant, on every public bell of the city, and in every private dwelling, another, by which the alarm of fire may be given at the same moment, throughout the city, and the place of the fire indicated at each of the engine houses simultaneously A third plan is one by which all the lamps in the streets may be lighted or extinguished together at any given moment

☞ The New Orleans Bee, alluding to some of the speculations of some of the Locofoco Journals, apply remarks — The attempt to identify Gen Taylor with the political opinions is perfectly absurd and that too by those who were loud at in their revilings of him during the canvass In due time they will find out that he is a Whig though not an ultra one, yet Whig enough to be surrounded by his friends and by his traducers and personal traducers

☞ We regret to learn that Dr Chas Jewett, who has been laboring for the past nine years in the cause of Temperance, greatly to the acceptance of his friends, is about retiring from the field having had an invitation to settle in a town in Connecticut in his old profession—He will visit Mass, for a few weeks before leaving his native parts and now dwelling on and address his old friends once more on the subject he has so much at heart

☞ The Tariff question is to be opened in the House, upon instructions to the Committee on Ways and Means This is cheering, and shows the fact, that the Whigs mean to make that points decided issue in the new phase of the Government and that is one of the good points for getting a Whig Administration

To the Editor of the Whig and Courier

In your paper of Saturday, I notice a communication signed "B", which I am sorry to see, attributes to me motives for my action, which certainly are far from being correct, and perhaps it is the office of a friend at a time to explain

It is true I was not re elected, and it is also true, that I neither desired or expected to be — Several weeks before the convention, I stated to several of my friends that I had concluded to decline being a candidate and that I do, in favor of Mr T provided he should wish to be elected And this, if necessary, I can prove

After calling the convention to order, and stating the object for which it was called I stated to the convention, that I did not wish to be elected, nor did I wish my present position to influence the vote of any one member provided, they desired the election of another, but as the office was an honorable one, though attended with much responsibility and labor and with but small pecuniary compensation, if no one else wished to take it, I would consent to serve, though I did not desire to So much for this

Again, Mr B makes me speak in rather more decided terms of various parties than is correct I did not say that Towns books "combined all the excellencies of other similar books previously published But I did speak well of the literary merits of these books so far as I was acquainted with them, and I did not oppose their introduction in schools, though I did oppose their exclusive recommendation, for the reasons already given So in relation to the charges he says I brought against the books I said nothing which I had not heard, from what I regarded as good authority, though I did not then nor do I now vouch for the truth of all the reports that I have heard Perhaps I have been misinformed, and if so, and if acting from misinformation I have made any statements calculated to prejudice any books or any individuals in public estimation, I should most willingly make the correction It was a most unpleasant duty which I felt bound by my oath of office, to perform, besides by a resolution of the B E it is the duty of each member to attend the annual meeting, and among other things, express his views on the subject of text books This duty I performed last year and my report was published at the time in several newspapers, I think That report I endeavored to make in exact accordance with the views of the B E, so far as I understood them I stated my views frankly, to the late convention, as it was my duty to do But the only opportunity I had for doing that was after the report of the committee had been submitted to the convention, and then much to my regret I felt myself called upon by a sense of duty to the public, to oppose a report presented by a gentleman, to whom personally, I have ever felt all due respect I had not been consulted, in any way, by the committee, as to my opinions, and I did not confer with any individual on the matter of opposing the report I did not advocate the recommendation of any particular books or series, because it is the policy of the B E not to act in this matter as partisans, but to leave the whole matter of selecting books to the town committees, to whom it properly and exclusively belongs — In strict accordance with this policy, I have ever endeavored officially to act Whether such is the best policy, time may determine W

General Taylor Visiting a School.

The New Orleans Delta describes a visit of Gen Taylor to the High School in New Orleans on the 3d inst On being introduced to the school, the General was addressed by a young miss, "the daughter of a Democrat," as follows

"I have been deputed by my classmates, dear General, to express to you the pleasure we experience, from a sense of the high honor conferred upon the school, by a visit from the distinguished Chieftain, who has been elected by the votes of freemen, to preside over the destinies of our great Republic

It is indeed a source of gratification when one of our fellow citizens visit the school, but how much is that gratification augmented when we receive as our guest one who has rendered both himself and his country illustrious by his brilliant military achievements, and who is now about to reap wine the graceful olive with the laurels that already encircle his brow We trust moreover, that you feel and acknowledge the truth of the celebrated reply of Madame Genlis, when asked by Napoleon how he could best serve the interests of France "By the education of our daughters" Pardon me, sir, for hoping that under your auspices, at least one bureau may be established at the seat of Government for the cause of education, upon which we have to right the perpetuity of our union, its ligaments so that a new *rose* flower may be wrought into the chaplet which you have earned upon the field of battle

And when, in after years, we say our name associated with some of the most glorious deeds which have ever adorned the pages of our history a thrilling, what delight and gratification will thrill our hearts, as memory brings back among bright sweet reminiscences, the hour you spent at the Girls High School, of the Second Municipality of New Orleans"

To this pretty speech, the gallant General replied, with much fervor and feeling, as follows

"My dear young ladies, I feel somewhat embarrassed to find words to express my acknowledgments to you, for your kind opinions and feelings towards me I fear you have complimented me far too highly, in reference to what services I may have rendered my country I cannot but feel pleased with your address, and assure you that I feel no ordinary gratification at seeing the advancement of education, for with it the principles of religion and morality must go hand in hand But this the land which gave us birth must be made a great country, and our people be rendered happy and contented In the numerous bright faces around me I see an earnest that those who are to follow in our path, will be well fitted for their duties Among them I see the future mothers of future heroes in the field, and sages in the council You will transmit those principles of independence, which are the great bulwark of the nation, pure and adulterated, to your children and children, as you race was them from those who have gone before us, so that to the end of time, the councils of the wise may guide and govern, as the arm of the brave may defend and protect the land that gave us birth. Ladies, permit me to conclude by expressing a hearty wish that every happiness and blessing which the human family is capable of enjoying, may be your portion in this life, and that a still brighter enjoyment may be your reward hereafter"

The little ladies were all introduced to the General, and, in quick succession, discharged upon him such volleys of kisses, that the old hero for once was obliged to surrender

A change has taken place in Mr Clay's health since the election A letter to the New York Tribune says —

CINCINNATI, December 7

I spent Monday and Tuesday last in a call on Mr Clay at Ashland I found him looking but quite relieved of all symptoms of disease and regaining his strength daily—his mind still elastic his mind active energetic and vigorous and his patriotic heart burning as ever

He rejoices with true relish the result of the late election, and indulges a fond hope of good to be accomplished under Gen Taylor's Administration He will give it a most cordial support in all things consistent with his principles—and I trust the intimation is entirely superfluous — There exists the most intimate and thorough good understanding between Gen Taylor and Mr Clay

Mr Clay purposes to start soon on his annual visit to New Orleans, whose winters have proved so genial to his constitution

Boston Ahead in California Gold.

The Pennsylvanian of Tuesday contains the following relative to the first lot of California gold deposited at the Mint —

"The first gold from the California region was deposited in the United States Mint on Friday last and was immediately assayed Mr David Carter, an intelligent and adventurous citizen of Boston, (the yankees forever) brought this gold, amounting to 1 804 ounces, from California—whence he had just returned, having left Monterey on the 1st of September and reached Philadelphia Friday last, the 8th of December He crossed Panama, in Peru, to Panama across the Isthmus of Darien to Chagres thence to Jamaica and New Orleans, and then direct to the Mint, where his treasures were delivered He purchased the gold in every case from individual prospectors, in trade and for cash, and has realized very handsomely by his enterprize The value of the gold, as we saw it in the Mint, cast into bars and ingots is estimated at $35 000 The exact fineness will be ascertained by the Assayer of the Mint, and a report made to the proper Department on the subject It is said to be equal to the North Carolina gold, and a little below that of Georgia

The true Life.

The mere lapse of years is not life To eat, and drink, and sleep, to be exposed to darkness and to light, to pace around the mill of habit and turn the wheel of wealth, to make reason our book keeper, and turn thought into implements of trade—this is not life In all this but a poor fraction of the component of humanity is awakened, and the sanctities still slumber which make it most worth while to be Knowledge, truth, love, beauty, goodness, faith, alone can give vitality to the mechanism of existence The laugh of mirth, which vibrates through the heart, the tears which freshen the dry waste within the music that brings childhood back, the prayer, that calls us near, the doubt, which makes us meditate, the death, which startles us with mystery, the hardship, that forces us to struggle, the anxiety, that ends in trust—these are the true nourishments of our natural being

ARRIVAL OF THE NIAGARA.

Seven days later from Europe.

The Niagara arrived at Boston on Friday night She had a rough passage.

The arrival of the Niagara puts us in possession of some important foreign intelligence additional to that brought by the Canada The great news by this arrival relates to the revolution in Rome His Holiness has been stricken down by the very hand which he himself set in motion He has been made a prisoner in his own palace and compelled to select a ministry in accordance with the popular will

French affairs continued to present the same general aspect of doubt and danger In Spain, the Queen's troops had suffered a serious repulse, and the Court at Madrid were in great consternation Prussian and Austrian affairs have not materially altered since previous advices The condition of Ireland is again becoming one of extreme destitution and crime

Insurrection apprehended in Central Germany.

Accounts from Bavaria, Darmstadt and Baden represent affairs as being in a very uneasy state Apprehensions of an immediate insurrection throughout Central Germany is entertained

The Roman Chamber and the Pope.

At the sitting of the Roman Chamber on the 21st of November a Resolution of fidelity to the Pope WAS REJECTED It is doubtful if anything short of his actual dethronement will satisfy the turbulent spirits of that city

The Reported Assassination of Windisgratz.

The report of the assassination of Prince Windisgratz the leading Austrian General at Vienna, which was current at Paris, is also reported by two German papers

General Cavaignac, President of France, has despatched a brigade of 3500 men from Marseilles for Civita Vecchia, with orders to protect the person of the Pope, and secure, if necessary his retirement to France By this proceeding, Austria is effectually deprived of all pretence for intervention.

CHINA

Threatened Blockade of Canton by the Americans.

By the river and mail we have advices from Hong Kong to the 28th September The Overland Friend of China notices a disagreement between the imperial commissioner at Canton and Mr Davis, the American envoy there More specific details are contained in a Postscript to the following letter from Canton (dated the 27th Sept) to the editor of the Straits Times, at Singapore

CANTON Sept 27

The new government of Canton who affects a supercilious bearing towards all foreigners and refused some months ago to grant an interview to the Spanish ambassador, has contrived to get into an awkward squabble with the minister of the United States For some time the governor refused to fix a day for receiving Mr Davis and when he at last appointed one he did so while that gentleman was absent at Macao Mr Davis as soon as the intimation was conveyed to him, set toward that he would wait on his excellency at the time appointed, and left Macao without delay, but was retarded in his progress up the river by contrary winds and reached Canton a day too late

He sent an explanation and expression of his regret to the governor (Sen) requesting that another day might be fixed In this application an answer was returned so insolent a tenor that Mr Davis deemed it inadmissable, and returned it with a note to the following effect I shall wait a few days more for an apology and if that is withheld it remains for me to decide whether at once to block aide the river or to proceed to the Northward to see what I can do there The Plymouth and Preble (ships of war) now here, and the Ohio line of battle-ship the Dolphin 10 gun brig, and the Princeton, Steamer, shortly expected, afford ample means to enforce my demands —European Times

The Dutchman and the Balloon.

BY FALCONBRIDGE

A great many curious and facetious things have been told of Æronauts, and their aerial carriages, 'yclept balloons A balloon making its descent on or near people who have never seen such a flying machine, unquestionably looks a *leetle* 'supernatural like,' and, no doubt, makes their hair rise about as sudden as 'breadstuffs do semi occasionally

The Pennsylvanians are great on ballooning, that State having produced about a baker's dozen of aerial experimentalists, whose performances have been attended by no disasters, some pecuniary advantage—to the aeronauts—and considerable addition to the general stock of useful science Some years ago, a balloonist, named West, made several voyages to the upper regions from the town of Lancaster County, Pa About the same period, a Dutch farmer from the interior of New York State, Dutch as *sour krout* took it into his head to pay a visit to some of his equally Dutch *freats*, in the aforesaid Lancaster County Nick Morgan was the old farmer's name—simple and honest he was honest as the day is long—with not ten consecutive ideas beyond the daily routine of his farm a railroad and locomotive he had never seen, and as to the matter of balloons, they were altogether such contrivances as he had never dreamed or heard of Mounted upon his old sorrel mare, with a few edibles, and a clean shirt or two in his saddle bags, old Nick started on his tour to Pennsylvania

The *prom* had preceded old Nick some few days in his visit, and he bustled along to join her

Jogging along quietly and musing pretty not far from his journey's end, the old farmer and the old mare were crawling up the slope of a little hill, when a voice bawled out —

'Hurry on, old man! I want to pitch my grapnel into that hill side—hurry, hurry

The old sorrel pricked up her ears, and old Nick's eyes popped out consideratly and he screwed and twisted them behind and before, right, left, and down below, yet nothing could he see when still louder and more clear than before, came the same awful voice —

'Come, come, old codger, hang you, ride on ride on, I say, I'll pitch regular on to you?

The old man was bewildered, alarmed, horrified! It roused up the old mare, and the poor old critter, as it held its master, trembling like a leaf Old Nick's eyes fairly bung out in every direction, but upwards—but not the first ghost of a thing could he see, save the hill on which he stood finished, and a few old stumps close by

To these old stumps, West, the Æronaut—who was some hundred feet in the air just over the Dutchman—wished to fasten his grappling iron and stay his balloon, as night was approaching, and no better spot could he easily found, there and then West was extremely anxious to alight But the old hollow and hoose materially interfered with this arrangement—Time was everything just then the Æronaut did not wish to hook up the traveller, nor lose his balloon, so getting wicked at the Dutchman's delay, down West threw his grapnel, attached to many fathoms of strong cord, by which pressing a *leetle* too short just fell on the hind quarters of the old sorrel, hooked the Dutchman's coat tail and drawing the back part of the sad cloth up as wax At this critical juncture, a puff of wind bounced the balloon upwards, and lifted the man clean and clear off her hind legs, and but for the garth parting, the poor quadruped Dutchman and all, might have been carried bodily off The old mare turned up her eye just as the girth of the saddle broke and, espying the great balloon over head, she bolted as if the veritable 'old Nick' himself was after her

Poor Nick Morgan! his coat tail came out by the roots, and he and the saddle were hoisted and hauled forty rod down the hill where with all the breath knocked out of his body, the poor old man lay stretched out, like a spread eagle

'There, you infernal old donkey, you, have ed the Æronaut, as he was sailing away there you are cuss you, I know it!

Old Nick revived in time to hear this malediction, and get one glimpse of the flying machine, when up he bounced and after his mare he went in no time an hour!

On, on he sped, and, until not two ounces of vital air filled his breathing apparatus, over the fence of his relative's grounds Nick flew and up the lane he travelled, bursted into the house frightened, and cut up such wondrous strange *didoes* that his wife and friends believed he had gone stark mad!

Exhausted quite, the poor old fellow threw himself down upon the bed, and in all the combined efforts of his friends, the tongue of Nick Morgan refused to operate and unravel the mystery At length his *voice* essayed—

'Nicholas vot ish de matter mit you? Umph, speak, and tell your vife vot der matter ish, umph?

No reply, but turning his head over and looking at his wife and friends with all the subdued tenderness of a dying calf, the old Dutchman offered up a heavy doleful *groan*

An other *look*, and another dreadful groan

'Nicholas, Nicholas, vy don't ye tell *me* vots de matter?

The old man rose up a little, stared around, caught hold of his wife's arm to satisfy himself that she was there, real flesh and blood then, in a voice low and strong, betokening the deep solemnity of his feelings he spake—

'I ve seen—seen—*I*—I've seen him

The friends all huddled around, the *vife* leaned over the bed, and, with a voice of extreme anxiety, asked—

'Seen *him*?—who vos it vot you see d?

'I—I've seen him!

'Who? cried all the friends

'Der di vil

'*Der di vil*? echo the whole group of listeners

'Yaas! an he'mine *gat, vot a pig pag he carries on his shoulders!*

JOHN BECKFORD

Rev Jonathan Going, D D, President of Granville College, Ohio, says—"He was laboring under a severe COLD, COUGH, and HOARSENESS, and that his difficulty of breathing was such that he felt himself in imminent danger of immediate suffocation, but was perfectly cured by using this Expectorant."

Mrs Duke, of Salem, N J, was cured of Asthma of 20 years standing, by using two bottles of this medicine, and Mrs Ward, also of Salem, was cured of the same complaint by five bottles

Lewis C Levin, Esq the distinguished advocate of Temperance, stated at a meeting of upwards of three thousand persons, that he should not have been able to address them but for the use of "Jayne's Expectorant." He said that he had been laboring under a hoarseness and severe oppression of the chest, that he had purchased some of the Expectorant the day before, which had relieved him in a few hours, and he found himself contrary to his own expectation, able to address the multitude.

TO THE PUBLIC.
DR. BUNTING,
OFFICE No. 2 Granite Block, East Market Square, (up stairs) rear of the Penobscot Mutual Fire Insurance Company, Bangor—Member of the Medical Faculty of Edinburgh, Fellow of the Royal College of Surgeons in London, would inform the public that he will be in attendance at his Office, at all hours of the day and evening, where he will treat all the following classes of diseases—
All affections of the Lungs, Liver, Stomach, Bowels, Kidneys, Brain, and Nervous System.
All Scrofulous diseases, whether hereditary or acquired since birth—manifested in glandular Tumors, Warty Swellings, Salt Rheum, Sore Eyes, Eruptions, Ulcers. Also, all cases of Callousness, Pain in the Head, Chronic Bronchites, Stone or Gravel, Seminal Diseases, and all Chronic, Mercurial, Rheumatic, and Scrofulous diseases, or Sores generally cured.
Also, all Female Complaints, Seminal Weakness, Fits, and diseases of the Eye and Ear; in the treatment of which Dr B has met with unprecedented success, never having lost one single case. In short, all diseases to which the human frame is liable.
No medicines prescribed to derange a healthy organ and not heal it a diseased one, which is too often the case with most scientific Physicians.
Dr. B, in offering the results of long study and practical experience to the people of this country, is governed by feelings of humanity only; so many having been deceived by pretended quacks, calling themselves regular physicians, when in fact they are ignorant of the first principles of medical science.
Dr. B solicits a call from all who may be afflicted with any disease, and those suffering from the bad effects of Mercury incontinently administered, or from quack nostrums, administered by ignorant empirics. All thus afflicted may rely upon ready relief to their suffering.
For further particulars call at Dr. B's office — Advice gratis. Dr B can be consulted by letter, and if the disease is accurately described, prescriptions and medicines will be immediately forwarded. The best of reference given.

CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life.

THE GREAT ENGLISH REMEDY FOR COLDS, COUGHS, ASTHMA and CONSUMPTION

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and efficacious of all the [illegible] compounds now known to the civilized world.

Thousands in the United States, during whose lives it has been distributed from Maine to Florida, have only served to establish its pre-eminence in all parts of the country as the great and only safe remedy in the worst cases of Pulmonary Consumption, and the best and most agreeable curative of all the skilful forms of colds, cough and inflammations that can possibly be used.

ENCONTESTIBLE PROOFS

Of the efficacy of this Balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY

Dr Brandreth—Dear Sir I received Buchan's Hungarian Balsam of Life, and have found it a most admirable preparation for diseases of the lungs. I have used it in my family and in my professional practice for more than a year, with the most astonishing and satisfactory results. It is the best remedy for Pulmonary disease, and I can conscientiously recommend it to all who are afflicted with the slightest pulmonary complaint. Yours respectfully,

FREDERIC T STORER, M D

Saco, Me, May 22 1846

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

(From Rich'ardson Brewster)

While undergraduate quackery we are always pleased to give credit to the Hungarian Balsam, and to give information which may benefit others. A few days ago a brother of mine, from Norway Me came to our office in a miserable health, whom we did not expect to see long in this world. We recommended for two weeks, from motives of pure regard to the feeling with him, as we thought he was confined to his bed and could probably not live but a short time. Judge then of our surprise when we saw him near our office. He said he felt light and remaining said he would be able to do the business of his farm, until he had time for acquiring strength of lungs. But he was comfortable in health. The following letter which he addressed to the General Boston Agent for the medicine which has restored him so wonderfully will tell you what medicine has been the instrument of the good work.

Boston Feb 16 1847

Dr D F Bradley—Sir—I cannot refrain from my urge, if I do not recommendation of Buchan's Hungarian Balsam of Life. Being a physical sense of duty to the cause and if it does are of any benefit to any of my fellow creatures. Three years ago last fall I took a cold which left me a cough of the most aggravated kind, accompanied by a severe pain in my left side. Last June I felt so much so, feeling that I was obliged to quit all work and was confined to the house and to one or four weeks alone. During that time I applied the best medical advisers, and tried a great deal of medicine which are recommended in such cases, but could find no relief, but grew worse, and for the last three weeks I was confined to my bed. I was of my physicians gave me up as past recovery. But as a forlorn hope I was induced to try the Hungarian Balsam, and immediately procured a bottle. The effect was instantaneous, and was to me like broken up my cough and relieved me to a situation to resume, with advancing health, my usual occupation.

BE WISE TO-DAY!

Delay in any case of Consumptive tendency, is common sense by Death, under all or any treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above enumerated be advised in time.

This Extract is put up in Quart Bottles—it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the Patient.

The great humanity and superiority of this Sarsaparilla over all other medicines, while it eradicates disease, it invigorates the body, is one of the very best

SPRING AND SUMMER MEDICINES

ever known. It not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood*, a power possessed by no other medicine. And on this has the grand secret of its wonderful success—It has performed within the last five years, more than 100,000 cures of several cases of disease, at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children during the two past seasons.

20,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline, have a glorious and rapid cure. Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system gives activity to the limbs and strength to the muscular system, in a most extraordinary degree.

CONSUMPTION CURED

Consumption and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh Cough, Asthma, Spitting of Blood, Sore Throat in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c have been and can be cured.

SPITTING BLOOD

New York, April 28, 1847

Dr Townsend—I write to tell you that your Sarsaparilla has been the means through Providence, of saving my life. I have for several years had a bad cough, it became worse and worse. At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk out, my cough has left me, blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,

WM RUSSELL, 65 Catherine st.

RHEUMATISM

This is only one of more than a four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly cured daily in the extraordinary virtues.

Jam s Cummings, late one of the assistants in the Lunatic Asylum, Blackwell's Island, state gentleman spoke of in the following letter.

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk. I had the most distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla and they have done more than one thousand dollars worth of good. I am as much better—indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully,

JAMES CUMMINGS.

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course do not recommend it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Hardman, August 13, 1847

Dr Townsend—Dear Sir I have a little girl seven years of age who has been several years afflicted with Fits, we tried almost every thing for her, but without success at last, although we could find no recommendations in your circulars for such cases like hers, we thought as she was in very delicate health, we would give her one of your Sarsaparilla, and am very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we feel grateful. Yours, respectfully,

JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Pains Low Back or Kidneys, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof and for the general invigoration of the system—no matter of what the result of inherent cause or cause produced by irregularity, illness, or accident. Nothing can be more surprising than its tonic effect on the human frame. It removes all weakness and lassitude from a taking it, at once restores vitality and full energy under its influence. It turns entirely counteracts the evil effects of the fatal practice, which is the great cause of Barrenness—It will not in a specific case, in cases of so delicate a nature to exhibit certificates, as others performed, but we can assure the afflicted that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this medicine, children have been blessed with fine healthy offspring.

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "*The Crisis of life*" should neglect to take it, as it is certain preventative for any of the suppressions and horrible diseases to which females are subject at this time of life. This period *may be delayed for several years by using this medicine* valuable for those whose approaching womanhood is to be calculated to assist nature, by quickening the blood and invigorating the system. In fact this medicine is invaluable for all the delicate diseases to which women are subject.

It invigorates the whole system, renews permanently the natural energies—by removing the impurities of the body not only for stimulating as to produce subsequent exhaustion—but which is the base of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many sickness and painful surgical operations may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth over discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—Costiveness, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The use of this medicine is so simple and the most successful, very few cases require any other medicine—a mild aperient (Castor Oil or Magnesia is useful). Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement.

BEAUTY AND HEALTH

Cosmetics, Chalk, Vinegar, a variety of preparations generally in use, when applied to the face, are a mere disposal of its beauty. They close the pores of the skin, and check the circulation, which, when nature is allowed to do her work, gives a healthy and vigorous complexion to the human form divine," as well as to the garden of rich and delicious fruit and flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite hues. It is that which imparts the indescribable shades and fashes of loveliness which all admire but none can describe. This beauty is the offspring of nature—*not of powder or rouge*. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if the paint and cosmetics, and if the blood is it sick, cold, and impure, there is pure and active blood, it gives a rich blood to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, and who have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complex ones, they should use Dr Townsend's Sarsaparilla. Thousands who have tried it are more than satisfied, are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff a great remedy for *females*, &c, and have copied our bills and circulars which other men who put up medicine have, since the great success of Dr. Townsend's Sarsaparilla in complaints peculiar to females, recommended them, although they did not. A number of these Mixtures, Pills, &c, are injurious to the health, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla a number of men who were formerly our Agents have commenced making Sarsaparilla Extracts, Lixir, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

DR. CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the Age*

Dr. CHRISTIE'S GALVANIC BELT and MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body giving tone to the various organs, and invigorating the entire system. Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause, namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease* for they weaken the vital energies of the already prostrated system, while under the invigorating life giving vitalizing influence of Galvanism as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *outward application* in place of the usual mode of drugging and physicking the patient till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions and never do the slightest injury under any circumstances. Since their introduction in the United States only three years since more than

60,000 Persons

including all ages classes and conditions among which were a large number of ladies who are peculiarly subject to Nervous Complaints have been ENTIRELY AND PERMANENTLY CURED,

when all hopes of relief had been given up, and every thing else been tried in vain.

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach afford *temporary* relief but which leave the patient in a lower state and with injured faculties, a law the action thus excited has caused. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack and simply fix the Belt around the body using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Salt thereby causing a galvanic circulation which will pass on to the negative, and thence back again to the positive thus keeping up a continuous Galvanic circulation throughout the system. "THE MOST SEVERE CASES OF DYSPEPSIA ARE PERMANENTLY CURED A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

The following letter, narrating one of the most remarkable cures on record in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and extensive reputation.

SUSSEX, New Jersey, July 12 1848

DR A H CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about *twenty years* I had been suffering from Dyspepsia. Every year the symptoms became worse and more distressing. I tried almost every course of medical treatment within my reach, from the most skilful and excellent men, but here their prescriptions failed. About *fourteen* years since in consequence of frequent exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism which for year after year, caused me inconceivable anguish in the severer paroxysms, the skill of my physician astonished times afforded me great relief, but this relief was only temporary. Further in the winter of 46 and '47, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my labors. My nervous system was *thoroughly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection, thus evincing that these disorders are connected with each other through the medium of the Nervous System. My sufferings were indeed severe and I had promised other ministers to supply my place in the discharge of those duties, and the performance of these labors, in which my spirit has ever found the highest of her joys.

But reasoning from effect to cause, I concluded that the *Nervous System* must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopoeia there seemed to be no medical agent which could reach and recuperate my Nervous System, so very thing that I had tried for this purpose had completely failed me. At last I was led by my friends to examine your inventions and (though with no very sanguine hopes of their efficacy,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS AT DUPERSTA RAN NOTHING, IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS, NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE RHEUMATISM. I AM NOW AS FREE FROM THE AFFECTION, AND CEASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract. My Dyspepsia has yielded, and the Rheumatic complaint comes in a while visits me, but not severely, and is easily arrested, and is manifestly being driven from its hold. I can upon my conscience say that affection is *entirely cured*. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from similar malady affections. They have tried them, WITH HAPPY RESULTS, I BELIEVE IN EVERY CASE.

I am, Dear sir, very respectfully yours.

ROBERT W LANDIS.
